

# **PERFORMANCE REPORT**

## **MWRA EMPLOYEES' RETIREMENT SYSTEM**

**February 27, 2020**

**Sebastian Grzejka, CAIA, Senior Consultant**

**Lebo McCallum, Analyst**

BOSTON | ATLANTA | CHARLOTTE | CHICAGO | DETROIT | LAS VEGAS | PORTLAND | SAN FRANCISCO

# GOALS & OBJECTIVES

## Investment Return Objective

**"Its primary goal is to provide promised benefits to participants and beneficiaries of the MWRA Employees' Retirement system. Plan assets should be equal to or greater than the present value of the projected benefit obligations ("fully funded"). When Plan assets are less than the present value of projected benefit obligations, a schedule will be established and a plan will be in place to meet a fully funded status. When achieving return objectives required to fully fund the system, the Board is intent on controlling risk. Consistency of returns and risk of loss are primary considerations. The Board has also determined that the annual performance of plan assets should not vary substantially from returns achieved by other public pension funds with similar goals and objectives."**

## Return Expectations

**The investment growth should be maintained in such a manner that the minimum nominal rate of return does not cause a negative real rate of return over a full market cycle:**

- **Time Horizon:** Return assumptions will be based on a ten year time horizon with a detailed review and analysis to be made at least annually to monitor allocations and assumptions. Should a manager deviate from proscribed mandate or expected risk and return profile by a consequential degree, that manager may be reevaluated at any time.
- **Liquidity Needs:** Presently contributions exceed plan withdrawals to provide benefits, payouts, and/or plan expenses. Portfolio liquidity will be managed based on the cash flow needs of the System.
- **Regulatory Considerations:** Assets of this Fund shall be invested in a manner consistent with the fiduciary standards established under Code of Massachusetts Regulations 840 ("840 CMR"). The Board shall also use as precedent the Employee Retirement Income Security Act (ERISA).

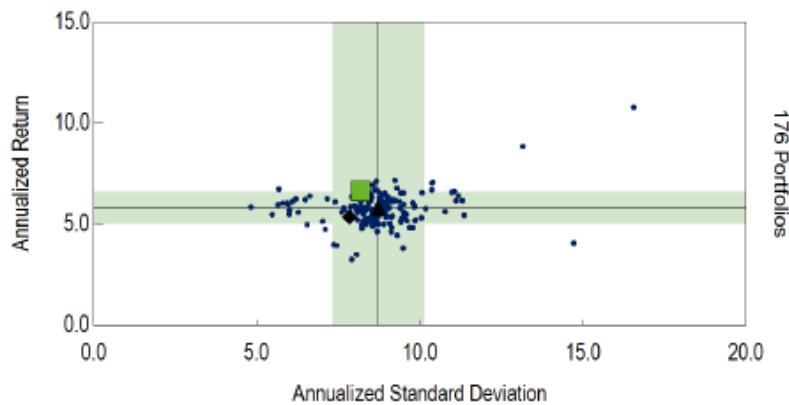

# EXECUTIVE SUMMARY

Net Return Summary  
Ending Jan 31, 2020

20 Years Ending December 31, 2019

## Performance

- The Composite returned -0.4% for the month slightly behind the Policy Index and allocation index which returned -0.2% and -0.3% for the month respectively. Active management detracted 0.1% from performance in January.
- January produced a lackluster month for global stocks amid fears fueled by the outbreak of the coronavirus. The S&P 500 Index was flat in January, while international and emerging market equities lagged with the MSCI EAFE Index and MSCI Emerging Markets Index losing 2.1% and 4.7%, respectively. The portfolio's domestic equity composite returned -0.6%. The international equity composite and the emerging market equity composite returned -2.5% and -6.1%, respectively.
- In fixed income the wave of risk aversion fueled demand for safe-haven assets, causing a decline in global yields. The portfolio's fixed income composite returned 1.9% for the month in line with the BBgBarc US Aggregate.
- This brings the overall performance on a trailing one year period to 10.3%, while the allocation and policy index returned 10.9% and 11.7%, respectively for the same period.

20 years Risk/Return is as of 12/31/2019. Chart reflects universe data on quarter end months only.  
Returns for 20 years Risk/Return and Statistics Summary are gross of fee.

## **Information Disclaimer**

- Past performance is no guarantee of future results.
- All investments carry some level of risk. Diversification and other asset allocation techniques are not guaranteed to ensure profit or protect against losses.
- NEPC's source for portfolio pricing, calculation of accruals, and transaction information is the plan's custodian bank. Information on market indices and security characteristics is received from other sources external to NEPC. While NEPC has exercised reasonable professional care in preparing this report, we cannot guarantee the accuracy of all source information contained within.
- Some index returns displayed in this report or used in calculation of a policy, allocation or custom benchmark may be preliminary and subject to change.
- This report is provided as a management aid for the client's internal use only. Information contained in this report does not constitute a recommendation by NEPC.
- This report may contain confidential or proprietary information and may not be copied or redistributed to any party not legally entitled to receive it.

## **Reporting Methodology**

- The client's custodian bank is NEPC's preferred data source unless otherwise directed. NEPC generally reconciles custodian data to manager data. If the custodian cannot provide accurate data, manager data may be used.
- Trailing time period returns are determined by geometrically linking the holding period returns, from the first full month after inception to the report date. Rates of return are annualized when the time period is longer than a year. Performance is presented gross and/or net of manager fees as indicated on each page.
- For managers funded in the middle of a month, the "since inception" return will start with the first full month, although actual inception dates and cash flows are taken into account in all Composite calculations.
- This report may contain forward-looking statements that are based on NEPC's estimates, opinions and beliefs, but NEPC cannot guarantee that any plan will achieve its targeted return or meet other goals.
